## WTC Communications acquires Rural Broadband Services (RBS)

**KINGSTON, ONTARIO, July 11, 2007** – WTC Communications is pleased to announce the acquisition of Rural Broadband Service's (RBS) wireless network assets and customer base. With this purchase, WTC Communications now has significantly increased their wireless service area; providing wireless broadband internet to rural residential and business customers. In addition to purchasing the assets, WTC is also pleased to welcome Kevin Christy to WTC as Manager of WTC's Wireless Division. As one of the founders of RBS, Kevin has extensive knowledge of wireless networks and will be a valuable resource to the Company.

Deploying wireless broadband can provide a number of useful benefits, specifically for businesses, residents, and telecommuters:

- SPOC (Single Point of Contact) for ease of use
- Working with an established company helps provides peace of mind
- Using present day leading edge technology offers better tools
- Future visualization affords customers a research & development partner
- One Stop shopping provides savings, competitiveness, quality of service, support, & ease of purchase
- Faster, guaranteed bandwidth that is Dedicated 24 hour a day
- No phone lines required
- Always ON, Always Secure, No wait for connections!

WTC Communications' wireless high speed "broadband" internet access is now widely available at affordable prices without the need for unsightly and expensive cabling. WTC has many service areas: Battersea, Dog Lake, Glenburnie, Inverary, Kingston (Downtown), Kingston East & North, Kingston Mills, Simcoe Island, Sunbury, Wolfe's Island (North West Shore), Chaffey's Locks, Crosby, Elgin, Jones Falls, Newboro, Portland, Westport. WTC is continually growing the wireless network.

### **About WTC Communications**

WTC Communications is a leading provider of communications since 1932, with highly scalable, reliable products, and services. The Wireless Division now forms a part of the growing WTC family of services including: Local Phone (Westport, Inverary & Kingston), Voice over IP (VoIP), Long Distance, Cable TV (Westport), Cable Internet (Kingston), High Speed DSL (Ontario & Quebec), Wireless High Speed, Web Hosting, Dedicated High Speed, and more. WTC Communications has been locally owned and operated for over 75 years. WTC is your single-point-of-contact for connectivity for voice & data; delivered from an established trusted company that has present day leading edge technology with future visualization. 'One Stop' shopping that promises savings, competitiveness, quality of service, local support, and ease of purchase.
