MOBILE ACCESS TO PROTECT YOUR FACILITY IS MORE AFFORDABLE THAN EVER

1 SAVE TIME

Open doors remotely from any device, adjust user permissions and manage access schedules without being onsite

2 SAVE MONEY

No need to rekey your doors or issue new key cards if they are lost or when an employee leaves your company

3 SAVE THE HEADACHES

Remotely monitor who comes in and out of your business location and get alerted when "unwanted" guests enter your building

FROM PANEL TO READER TO VIDEO, BRIVO HAS EVERYTHING YOU NEED IN ONE KIT:

- Brivo Onair® account with a mobile app to remotely manage your location, add new users, open doors and manage schedules
- Flexible pricing and subscription terms to meet your budget
- 100 Brivo Mobile Pass credentials and 25 smart cards for your employees, contractors or visitors
- Integrated video surveillance package
- Dedicated training from Brivo experts
- Software and firmware updates ensuring you have the latest features
- Lifetime warranty on Brivo provided hardware

WHAT YOU NEED TO KNOW

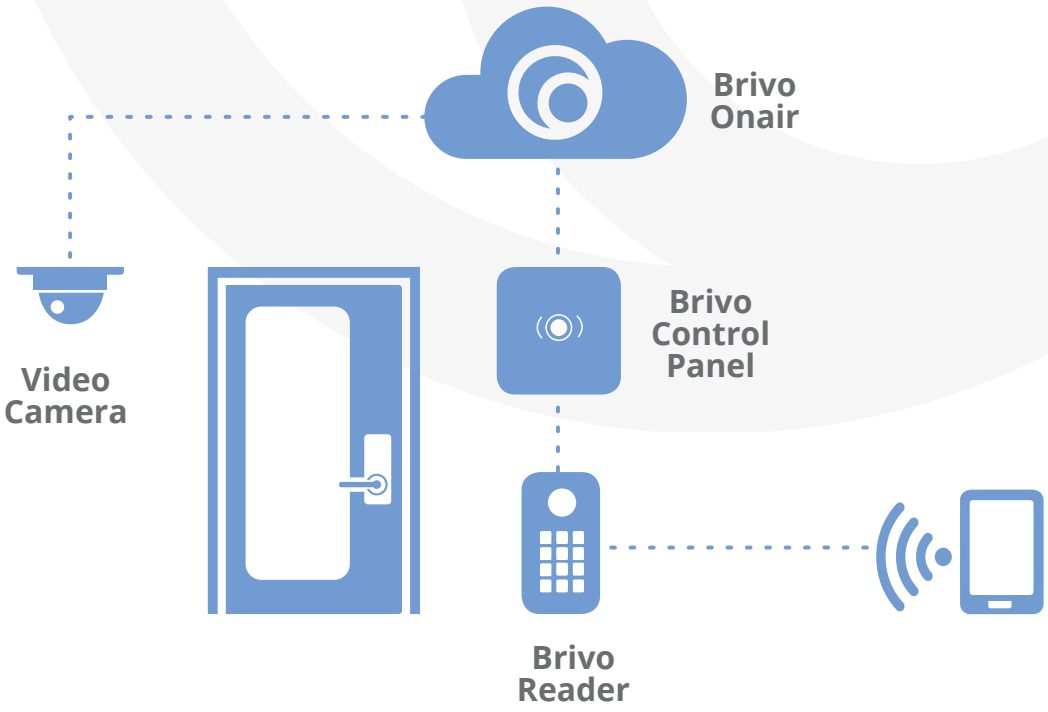

ACCESS CONTROL AND VIDEO THAT SUPPORT YOUR BUSINESS NEEDS BY:

- Offering the option to use wireless or electronic door locks
- Providing a best-in-class, secure Brivo controller that connects locks to the Brivo Onair system
- Adding video integration for a complete solution
- Equipping you with Brivo Mobile Pass credentials or key cards to enter one or multiple locations
- Allowing you to remotely manage your facilities with your mobile device

Customer Testimonial

"The Brivo access control solution was a perfect fit for our business. The ability to customize the solution for different groups and schedules is a tremendous asset to the school at a very competitive price. We particularly love the Brivo Mobile Pass because it allows us to provide access without using an access card."

-Martin Cuellar,
Chief Administrative Officer
MT Training Center

Over 15 million users use Brivo to access their facilities
